**Club Z allows students to get extra help with their classwork. From students who are struggling, to students who just need time to finish their homework, Club Z provides support for all. During the ASYP, the tutor will help each student overcome difficulties and dive deeper into the material the student is currently learning.**

**While the program will run during the school year, the tutoring doesn't have to stop there. Club Z provides customized 1:1 Tutoring In-Home or Online/Virtually. Over 50 subjects and areas of study are offered, from basic reading comprehension, math, to advanced AP-level, foreign languages, STEM subjects and ACT/SAT test prep.**
