DTE Hosts Community Open Houses on Sept. 28 & 29
Please note - The meeting previously scheduled for Sept. 22 has been rescheduled to Sept. 28 due to weather conditions

Residents in Farmington Hills and Farmington are invited to attend two different Community Open Houses hosted by DTE to learn about planned infrastructure improvements and tree trimming efforts in the area. DTE has made a commitment to improve electrical reliability after the community experienced widespread outages following back-to-back severe storms this summer.

The Open Houses will be held on Tuesday, September 28 from 5 to 7:30 p.m. at the Heritage Park North Pavilion in Farmington Hills, and on Wednesday, September 29 from 5 to 7:30 p.m. at the Sundquist Pavilion in Riley Park located in downtown Farmington. ***(Please note: The meeting previously scheduled for Wednesday, September 22 was rescheduled to Tuesday, September 28 due to weather conditions.)***

Officials from DTE will discuss plans to address problems with specific circuits that have experienced repeated electrical issues and frequent outages. Prior to the Open Houses, DTE will directly contact residents within the areas serviced by these circuits, which supply power to 1,000 - 3,000 customers each.

All residents are welcome to attend the Open Houses, but DTE staff will focus on those customers who live in the main problem areas. Residents not impacted by these designated circuits may also share their concerns and DTE will follow up after the Open Houses.
